

Moving from Workfront Proof™ (formerly ProofHQ™) to Ziflow

An easy move to make

Transition to the leader in online proofing with no heavy lifting and all the help you need.

No heavy lifting

Ziflow fully manages the transition process from start-to-finish so you don't have to.

No missing work

Your Workfront Proof™ / ProofHQ™ (WFP/PHQ) account is automatically synced to Ziflow so no work is lost in transition.

All the help you need

Ziflow recommends workflow improvements, updates your training material, and provides all the resources your team needs to be successful.

“It was an easy migration from what was potentially a quite large and scary migration from one system to the other. The fact that Ziflow had the ability to pull the old proofs, including all of the comments...I thought was just amazing.”

Luke Dennis, Producer at Linney

LEADING BRANDS AND AGENCIES SWITCH TO ZIFLOW

We'll help you move

You provide access to your WFP/PHQ account
and we take care of the rest in three easy steps.

We prepare your Ziflow account.

Our team prepares your new Ziflow account, importing users and configuring your custom properties, decision labels, and more to reflect your WFP/PHQ Proof account. We also evaluate your current workflows and recommend ways to improve them with capabilities unique to Ziflow.

We provide Ziflow training and support.

Our team updates your WFP/PHQ training material, translating it to reflect the Ziflow product experience. We also provide you with all the resources your team needs to get up-and-running quickly.

We transition your work to Ziflow.

We move all of your proofs, workflow templates, folders, contacts, and groups to Ziflow. We've moved over two million proofs for new customers, syncing them so that any proof updates made in WFP/PHQ during the transition automatically appear in Ziflow.

We've moved over **2,000,000 proofs** for new customers

Start enjoying Ziflow
